

Counselling at home

**An offer for children and families
experiencing domestic violence.**

**NEW:
We also visit
you at home!**

Der Kinderschutzbund
Landesverband Bremen

We also visit you at home

The members of the Kinderschutz-Zentrum (Child Protection Center) offer support for children, youths, parents and other relatives in order to overcome and to deal with their violent experiences. We know this subject well and we are aware of its different consequences within the families.

Many affected persons ask themselves:

- How is my child doing?
- What does my child need now?
- How can I help my child?
- What kind of support do I need?
- What is our perspective?

Together we will find answers to these questions and solutions for parents, children and youths.

We help you on the spot

We work confidentially and free of charge and we offer quick and flexible help.

Our job is to perceive the needs of the children, youths and adults. Persons using violence can also contact us.
